Distancing only 1 hour away by car south from Lisbon airport and 35 minutes by car from Évora - a historic capital of the Alentejo and a UNESCO World Heritage Site - it's also close to many other epicenters such as the city of Setúbal, which is only 1 hour away, a city with deep roots with the bodies of water that surround it. Unsurprisingly, there is a predominance in fresh seafood of the highest quality, not to mention the ease of reach to the best beaches Portugal has to offer in Comporta. Driving through the land, you can come across typical Alentejo elements such as cork and olive trees, beautifully composing into a natural view.

LOCATION

Located in the heart of Alentejo, it consists of the same beautiful landscapes in perfect harmony with nature, surely to leave unforgettable memories for any visitor that experiences the view. There's exquisite traditional cuisine for all to enjoy, and for the lovers of outdoor activities, it is the perfect place for activities like hunting, fishing, sightseeing and sports like cycling, canoeing and much more, all to be enjoyed under a natural environment reigned by silence and peace.

Based on the Mediterranean trinity, the gastronomy available makes no short use of a vast amount of locally produced olive oil and local wine. The dishes add aromatic herbs and other products of the land with special mention of products such as lamb, black pork and beef, combined with fresh baked bread from the wooden ovens of the Padarias.

Our needs for a time-out from our daily routines, with exotic experiences in worlds vastly different from the ones we experience daily. Taking time to experience virgin beaches and forest fields as far as our eyes can reach is something we deeply desire nowadays. Our project aims to provide all of our customers with this once-in-a-lifetime break from our stressful routines and whole heartedly offer the most genuine experience Mother Nature can offer.

3 will be a nature inspired hotel, total with 15 rooms, including 2 of T0 and 13 of T1 duplex apartments in a modern but naturalistic style of design. All the apartments display a natural view to the river and a private and comfortable bedroom with the T1 type exclusively exempting 2 bathroom.

In order to form a stronger connection with the natural environment that surrounds the structures of the project, there will be a prevalent use of local wood as building material and as interior decoration to further emphasize the nature of the architectural design, the use of a variety of wooden furniture will be employed in order to strengthen the organic and sustainable nature of the project.

From the Hotel you have direct access to the center of the city as well as access to private parking inside the Hotel to facilitate touristic accommodation. In front of the main building, guests can pick between the outdoor swimming pool that delivers the sunshine and fresh air of summer, or the natural river of Vale de Gaio, bringing you a unique experience with the natural flow of water. The Hotel is also equipped with a restaurant that aims to offer a “farm to the table” experience, with products straight from the farm and a gastronomy experience that surpasses the expectations of people who wish for both short term visitors and visitors wishing for a longer stay without the need to leave the area of the Hotel, offering the unique experience of local gastronomy on the spot.

In modern times, a big portion of our world’s population reside in large, fast-paced megacities. This furthers
